

Dear Hemant,

Thank you so very much for your compassionate care of my love, Fred "Doc" Smith, during your time together. I very much appreciate your expertise as well as your kindness and humor, as you worked with him and helped him to get stronger. He would not have been able to do as much as he could, for as long as he could, without your help.

It is with a heavy heart that I report Fred's passing on May 7, under hospice care. I have to give him credit - he tried to work with you until he absolutely no longer could.

I will always appreciate the great patience, kindness, and concern you and others at Lake Centre for Rehab showed with him - and with me as his loved one - and I thank you very much.

You're the best!
